

Happy

Casey McQuillen

'Cause weâ€™re real good
And weâ€™re real nice
And everything felt alright
When you were there by my side

'Cause weâ€™re real good
'Till I went away
But you were my everything
And I was your anything
When weâ€™re real good

I want to be happy
I want to want you
But he just gets into my head
Makes me want him instead
But I cry whenever he's around
I don't know what to do
I want to want you

He broke me in two
I thought that with you
You could mend my heart
Erase away the scars

'Cause weâ€™re real good
'Till I went away
But I just want to say
I wish I could have stayed
'Cause weâ€™re real good

I want to be happy
I want to want you
But he just gets into my head
Makes me want him instead
But I cry whenever he's around
I don't know what to do
I want to want you

And we were so good
I know we were

I would have loved you
Yeah I'd put us first
But he's in my head
I don't understand why

So I want to be happy
I want to want you
But he just gets into my head
Makes me want him instead
But I cry whenever he's around
I don't know what to do
I want to want you

I tried harder than the waves
Would let me go
I swam but the tides, they pulled me
To and fro
I tried to breathe you and me
Into my life
But he pulled me back under the sea

I tried harder than the waves would let me go.
