Time for Change

Capdown

I used to think the way u looked determined how u feel,
But can't u see I've tried to change
I'm not so sure of how i feel but now I know that I'm for real,
My anger still lies deep inside.Stop waiting for tomorrow,
Peace, Unity, togetherness,
Just misery and sorrow,
If we just keep waiting for tomorrow.My views have changed, I'm not ashamed of what i have become,
Progressions is a source of life.
If everybody stays the same a world of conflict and distain will deny us of our future goals.
