Big White Cloud

John Cale

I already corrected these once and no changes were made. Why do it again.When I stand, my back to the sea
A big white cloud looking right down on me
Sound of sun, missing my eyes
Everything's clear, everything's brightBig white cloud, big white cloud
Big white cloud on me
Big white cloud, big white cloud
Big white cloud on meTime to kill on the hill
Looking at bees, licking the trees
Looking for signs
And then the rainOh, how I love you
Yes, how I love you
Oh, how I love you soOh, how I love you
Yes, how I love you
Oh, how I love you soAfter all is said and done
Everything is just like it began
Days that came, years again
Came in here once againOh, how I love you
Yes, how I love you
Oh, how I love you soOh, how I love you
Yes, how I love you
Oh, how I love you so
