

Never Mind Me

These Hearts

I got a girl back home working 9 to 5
With me in the band, she's saying "I don't mind"
Where in the world do they get a girl like that?
We'd sneak out, lose track of time
Run away, leave everything behind
Without you, my dream come true feels wrong

Never mind me
I will be here
Singing myself to sleep
Not a day goes by I don't wish that I was with you
Never mind me
I will be here
Singing myself to sleep
Not a day goes by I don't wish that I was with you
By your side

Late night call when your coming home
Gone so long, I'm so alone
I miss the laugh my other half once had
When everyone thinks I'm living the life
I'd give it all up to be home for a night
I got what I wanted but now I am haunted by you

Never mind me
I will be here
Singing myself to sleep
Not a day goes by I don't wish that I was with you
Never mind me
I will be here
Singing myself to sleep
Not a day goes by I don't wish that I was with you
By your side

Never mind me
I will be here
Singing myself to sleep
Not a day goes by I don't wish that I was with you
Never mind me
I will be here

Singing myself to sleep
Not a day goes by I don't wish that I was with you
By your side
