

American Zone

T.S.O.L.

There's blood on the streets again today
All the people dying, what a price we have to pay
Around the world they're fightin', it's not that far away
Feel the darkness, can we change our ways? We line in the American zone
Free of fear in our American home
Swimmin' pool and digital phone
What do we say when Johnny comes home? Johnny just got back from war today
Beirut weekend, the powder keg
He was 20 years old and he lost both of his legs
We're all really sorry today We line in the American zone
Free of fear in our American home
Swimmin' pool and digital phone
What do we say when Johnny comes home?
