

Excited

Marques Houston

(verse 1)

I wish that I could explain it, just why my heart won't slow down

Girl your body so amazing, tryna chill but I don't know how

Call me crazy but I know it's love is what I'm feelin'

Just one simple touch is more then enough to get me goin'(Chorus)

Something about you gets me so excited

When I'm around you, I just cannot hide it

Try to hold myself, but I just can't fight it

One look in your eyes and baby I'm excited(verse 2)

Say it's the way you move, your smile, your hair (everything about you)

To feel your kiss it makes it worse (what I gotta go through)

Said I'm bugging out everytime we hangin'out

Cuz it's in my mind so bad I wanna lay you down

Got me trippin, flippin'plans around (So I can chill with you)

Baby listen here can't hold it back gotta (know what I gotta do)(Chorus)

Something about you gets me so excited

When I'm around you, I just cannot hide it

Try to hold myself, but I just can't fight it

One look in your eyes and baby I'm excited(Bridge) x4

Look at me it's clear to see

its you and me

Just wan't to make you screamLet me make you scream(Chorus)

Something about you gets me so excited

When I'm around you, I just cannot hide it

Try to hold myself, but I just can't fight it

One look in your eyes and baby I'm excited(verse 3)

I'm so excited
