Certified Blues

[ZZ Top](#)

I woke up this mornin' with these certified blues
They sure been stalkin' me 'round
So down tonight I couldn't tie my shoes
They about to drop me in the groundIf I could shake loose, I would feel so fine
There's one thing for sure and it's on my mind
These certified blues are gonna take their timeI've been livin' here, way down south
A place that I wanna stay
Been workin' hard just to feed my mouth
Just can't keep them blues awayThere's one thing for sure and it's on my mind
These certified blues are gonna take their time
If I could shake loose, I would feel so fineYou say you're feelin' bad and you don't know why
You're broke and your woman been lyin'
An' just one thing before I'm fired
The blues have just been certifiedIf I could shake loose, I would feel so fine
There's one thing for sure and it's on my mind
These certified blues are gonna take their time
