

Gimmewhutchagot (feat. Barshawn)

Kurupt

Yo, Barshawn

Gimmewhutchagot nigga

Come and drip into the realm of the X-files

Gimmewhutchagot nigga, gimmewhutchagot nigga

Gimmewhutchagot nigga, gimmewhutchagot nigga Get your position correct, get your ammunition correct

The tactful tech technician effect

(Bitch)

I got a quarter key, you wanna to try to stick me for it?

Put the loot up, the shoot up and hit me for it?

Niggaz hang for, do the same thang for it

Penetrate like, uh, poor the gas, blast and then bang for it Y'all supposed to be some type of raw doggs, nigga

Fuck around and get your shit spit like laws, nigga

Fantasies never formulate

So when you get the formula to format

Restructure and reshape

Relax or we take all We make sure we shake all

We shake tame or aim or flame all

A bitch tried to play me like nothing's really real

Like I ain't really real and I ain't really got skills

(Bitch!)

I make you hot like ten tons of lava rocks

The Juggernaut crackin' niggas like cinder blocks, nigga Gimmewhuthcagot nigga, get blazed, get shot, nigga

We make it hot nigga raw, my nigga Barshawn

Kurupt with the auto metal cock and draw

I ain't got time to see what you saw Beat back mothafucka before I crack your jaw

This ain't about nothin' but life and law

Niggaz killin' me

What you ice-grillin' me for? Now how you gonna let my looks deceive you? My raps is lethal

I kicks shit that would amaze you, they daze you

Y'all think my rhymes is voodoo, for the first time comin' through

Ain't been a minute yet, already cats wanna eye-screw

Plottin' to pop you, you don't know me duke

The one that shoot, you all mad 'cuz I'm spendin' loot That you all broke ass niggas been tryin' to scoop

See I done paid my dues, don't be fooled by the pretty boy image

'Cuz you'll get blasted up in less than a minute

It's Barshawn and Kurupt, y'all gonna feel it

'Cuz when I bless a track, I spit venom in it

So how you wanna do it, rappin' or gun-clappin' Either or, it could happen

Kurupt, move the glock to his mouth for they gappin'

I bet next time you stay in a child's place
This is Rome folks talkin', you don't relate
If you can't hold the weight, then don't debate
Pushin' crates, headed upstate with chrome plates
(Check it out)Gimmewhuthcagot nigga, get blazed, get shot, nigga
We make it hot nigga raw, my nigga Barshawn
Kurupt with the auto metal cock and draw
I ain't got time to see what you sawBeat back mothafucka before I crack your jaw
This ain't about nothin' but life and law
Niggaz killin' me
What you ice-grillin' me for?You all fiend, daydream for cream I've seen
Eyes gleam for the drop-top I be in
You wanna end my life, my niggaz ain't seein'
If so happen you did that
Where the fuck you expect the rest at?We got that too comin' through a quarter to two
Blazin' they duct tapin' you and your boo
All at the revenue stand, we was once a crew
Mad tight, but that's life, I learned the game
Same cats that you roll with will split your gameSee, I'm in it for the cheese
Nigga, fuck the fame
(Nigga, fuck the fame, mothafuck the fame)I play the nickel plated position, get penetrated
Popes just pause, I rise with my doggs
And collar clothes impact and enthrone
Gone, zone the dome and then blown
I heard raw before I saw raw before
Mack milli's, Mack 11's and four-four'sMe and my nigga Shawn
What you got weight on your shoulders?
The Freons gettin' colder
Me and my nigga Deion's hittin' corners
I got a beam on you chest high
Fuck around and get your fuckin' chest rightI spreads like bad news
Bitches get played like the blues
Blowin' dicks like whistles
Launch like missiles, pop like pistols
And confuse, misuse, enthuse
Abuse, buy the twos'Cuz I refuse to chill like EP
I prefer to get high live with the DP
You ain't raw nigga, you more like subtle
Fuck you and your rebuttal, you laid in a puddle
It's a storm, form reform your label form
Keep calm or keep drippin' in the twist of the swarmGimmewhuthcagot nigga, get blazed, get shot, nigga
We make it hot nigga raw, my nigga Barshawn
Kurupt with the auto metal cock and draw
I ain't got time to see what you sawBeat back mothafucka before I crack your jaw
This ain't about nothin' but life and law

Niggaz killin' me
What you ice-grillin' me for?Kurupt, young Gotti
West Coast, East Coast, nigga
Raw doggsGimmewhuthcagot nigga, get blazed, get shot, nigga
We make it hot nigga raw, my nigga Barshawn
Kurupt with the auto metal cock and draw
I ain't got time to see what you sawBeat back mothafucka before I crack your jaw
This ain't about nothin' but life and law
Niggaz killin' me
What you ice-grillin' me for?Gimmewhutchagot nigga, gimmewhutchagot nigga
