

# Conceal Me

Xavier Rudd

Hey Now  
I'm speaking once again  
    Oh yeah  
My name is in your head  
    So strange  
These people that you have  
    That's right my friend  
It's all just where you're at  
    This is how I like to play  
This is how I feel these days  
    This is how I like to play  
This is how I feel these daysTake me  
    Conceal me where you like  
        You will see it open  
        From within I will rise  
        Like seasons  
        Your flavour will die  
        On and on these people  
They'll listen every timeThis is how I like to play  
This is how I feel these daysThis is how I like to play  
    This is how I feel these days
