Leave You Laughin'

Cledus T. Judd

Lately I've been thinkin'
About this crazy life I live
All the things that I've been given
And just what I have to giveOh, I may not be a rich man
In a lotta people's eyes
But I found the treasure I can share
Inside this heart of mineOh, I'd like to be remembered
By the smiles on your face
And if troubles come to find you
You can always look my wayAnd I will be right there beside you
As you travel down life's road
I hope I leave you laughin'
When the curtains closeI'd like to give you silver
Around your clouds of gray
Some gold that you can cling to
And the memories we madeAnd if by chance tomorrow
Heaven's angels call
And I go on before you
To the greatest show of allOh, I'd like to be remembered
By the smiles on your face
And if troubles come to find you
You will always look my wayAnd I will be right there beside you
As you travel down life's road
I hope I leave you laughin'
When the curtains closeA merry heart would make good medicine
The Bible tells us so
That's what I try to bring to you
At each and every showOh, I'd like to be remembered
By the smiles on your face
And if troubles come to find you
You will always look my wayAnd I will be right there beside you
As you travel down life's road
I hope I leave you laughin'
When the curtains closeI'd sure like to leave here laughin'
When the curtains close
