

Northern Lights

Duran Duran

Looking up, from the polar sheets
Out in the stars, there's one I want to meet
I am the signal, somewhere in your bliss
So tell me do, do you hear my wish You're comin' down now (from there)
You're comin' round now (to share)
You got a thing I (I care)
I care about, I care about If you want to stay tonight
Write your name across the sky
Nothing I would rather like
Than see you in the Northern Lights Up on the roof, I listen for the moan
Of your soft footstep on the snow
Now and then, somebody else's glow
As they tune in to watch the show You're coming down now (from there)
You're coming round now (to share)
You got a thing I (I care)
I care about, I care about If you want to stay tonight
Write your name across the sky
Nothing I would rather like
Than see you in the Northern Lights
If you want to play the night
We could take an evening flight
Shine out from a higher height
Then we'll be in the Northern Lights If you want to stay tonight
Write your name across the sky
Nothing I would rather like
Than see you in the Northern Lights
If you want to play the night
We could take an evening flight
Shine out from a higher height
Then we'll be in the Northern Lights
Write your name across the sky
(write your name, write your name)
Write your name across the sky
(write your name, write your name)
Write your name across the sky
(write your name, write your name)
Write your name across the sky
(write your name, write your name)
