

# Way Back Home

## Bag Raiders

rain pours down over a city  
night has fallen like a stone are you gone or are you with me  
in my heart i'll never know if i close my eyes i'll see you  
hear your footsteps in the rain in my dream i'll never find you  
but i'll hear you call my name oooooooooooooooooooooohhh has i tread through crowds of people  
trying to keep from looking back got your sense on something passing  
and it sends me off my track do i find you will i follow  
to forever and a day  
i can feel you in the distance  
but you seem so far away what if i just can't find my way back home  
what about all the things i just don't don't know  
what if i just can't find my way back home  
would you be there to show me where to go oooooooooooooooooooooohhh what if i just can't find my way  
back home  
what about all the things i just don't don't know  
what if i just can't find my way back home  
would you be there to show me where to go  
x2
