

# Liar

## Emilie Autumn

I want to hold you to the sun  
I want to be your faithful one  
I want to show you all the beauty  
You don't even know you hold I'm hurting you for your own good  
I'd die for you, you know I would  
I'd give up all my wealth  
To buy you back the soul you never sold I want to mix our blood and put it in the ground  
So you can never leave  
I want to win your trust, your faith, your heart  
You'll never be deceived Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar I want to heal you pretty sweet  
I'll throw rose petals at your feet  
I'll spend eternity  
Comparing all my poetry to yours I want to see love through your eyes  
You'll never have to compromise  
I'll give up all my fame  
To fight your demons and your bloody wars I want to mix our blood and put it in the ground  
So you can never leave  
I want to win your trust, your faith, your heart  
You'll never be deceived Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar Are you suffering? Are you suffering?  
Are you suffering? Are you suffering?  
Are you suffering? Are you suffering?  
Are you suffering? Are you suffering? Are you suffering?  
I want your suffering  
I want your beautiful suffering  
I want to see your pain Are you suffering?  
I want your suffering  
I want your beautiful suffering  
I want to see your pain Are you suffering?  
I want your suffering  
I want your beautiful suffering  
I want to see your pain Are you suffering?  
I want your suffering  
I want your beautiful suffering

I want it, I want it I want to mix our blood and put it in the ground  
So you can never leave  
I want to win your trust, your faith, your heart  
You'll never be deceived I want to mix our blood and put it in the ground  
So you can never leave  
I want to win your trust, your faith, your lust  
You'll never be deceived Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar  
Liar, liar, liar, liar I want to mix our blood and put it in the ground  
So you can never leave  
I want to mix our blood and put it in the ground  
So you can never leave I want to mix our blood and put it in the ground  
So you can never leave  
I want to mix our blood and put it in the ground  
So you can never leave
