

Till I Fall Asleep

Jayme Dee

If you would just slow down you would see
We were meant for something
Lay your armor down and stay with me
Aren't you tired of running?
Can we go back before the storm came raging?
And everything we built was gone
So sing to me til I fall asleep
Like the way you did when you were still mine
And tell me that it's not over yet
We were never good at saying goodbyes
Why can't you see what's right in front of your eyes?
Remember our first kiss that starry night?
It felt like we were flying
So how do we forget?
That love is on our side
Oh we never saw this coming
Can we go back before the morning took you?
And every dream of you was gone
And so sing to me til I fall asleep
Like the way you did when you were still mine
And tell me that it's not over yet
We were never good at saying goodbyes
Why can't you see what's right in front of your eyes?
Woah, woahhh, woahhhhh
Can we go back before the storm came raging?
And everything we built was gone
So sing to me til I fall asleep
Like the way you did when you were still mine
So sing to me til I fall asleep
Like the way you did when you were still mine
And tell me that it's not over yet
We were never good at saying goodbyes
Oh we were never good at saying goodbyes
Why can't you see what's right in front of your eyes?
