Again

T.S.O.L.

I've seen your face before
That soulless window nightmare
Crawling naked before me
Adrenaline and nicotine
I've bled the colors of your dreams
You brutally tore me
And I will never be in love again
I will never...love again
I will never be in love again
Your twisted smile from magazine
You learned that look from our t.v.
And practiced it for me
Open heart and bittersweet
You cursed his name for death complete and now you disownme
Oh I will never be in love again
I will never...love again
I will never be in love again
