

# War Paint (Young Bombs Remix)

Fletcher

I can hear the shots when the fireworks soar  
And the sounds of the battle drop down  
Know i'm on top when the arrows are drawn  
The sergeant's on the saddle This aint the type of love that sees a lot of give and take  
Yet i dont know how we push and pull but i know we'll never break  
Bang bang, i can hear the shots  
But i like the way you feel in the flames of the candle Too late to leave these walls  
This castle's been surrounded  
Wont stay to watch it fall around us CHORUS:  
Bring the big guns out, shoot now  
I'll make the drums beat harder for you  
Bare it on the ground, bleed out  
I'll rub the colours on my face it prove  
I sing it like, woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
Woah -oah -oah -oah  
Watch me put my war paint on (my war paint on) I move my troops on the map  
When your allies and your tribes, are tellin you to leave me  
They wont see my plan of attack, cause this is our fight  
Love is not the enemy Everything that you kill me somehow makes me feel alive  
So take the gun, i'm your Bonnie, you can be my Clyde  
I know that you feel the same  
So paint it on your face, and baby let the world see Too late to leave these walls  
This castle's been surrounded  
Wont stay to watch it fall around us CHORUS:  
Bring the big guns out, shoot now  
I'll make the drums beat harder for you  
Bare it on the ground, bleed out  
I'll rub the colours on my face it prove  
I sing it like, woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
Woah -oah -oah -oah  
Watch me put my war paint on (my war paint on) its not easy, but i'll drop my knife for you  
its not easy, but i'll drop my knife for you  
again CHORUS:  
Bring the big guns out, shoot now  
I'll make the drums beat harder for you  
Bare it on the ground, bleed out  
I'll rub the colours on my face it prove

I sing it like, woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
Woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
Woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
Woah -oah -oah -oah  
Watch me put my war paint on (my war paint on)  
On for you
