

Wheels

[Mark Lanegan](#)

Light ahead proves that the wheels broke down
Here I am, still hangin' on, well alright Shadows only disappear
Just look around there's no one here
A little spirit turned my light on out and now Can never be no doubt
You got to walk in the morning sun
And got to smile at everyone Go my love on your way to bigger and
Bright better days
And I'll go crazy for it all And I won't stop lovin' you, baby
Oh, yeah, here I am
This feeling inside a body Light ahead proves that the wheels broke down
Here I am, still spinnin' round Shadows only disappear
Just look around there's no one here
A little spirit turned my light on out and now Can never be no doubt
I'm gonna wait till the stars come down
My little love smiles on a wing For all a raindrop and tears not wasted there
Been pourin' down all day
Runnin' round catchin' 'em, baby
Run around catchin' 'em, baby Whichever way they fall
Won't stop lovin' you, baby
Whichever way you go, oh, yeah Here I am, here I am
Just runnin' round catchin' 'em
Whichever way they fall all night long
