

Foolin

JMSN

Whoa
Yeah-yeah
Oh, whoa-ho
Yeah-yeah, yeah
You're everything I want, yeah
It's something that you got, oh
And i just want to make you stay
Keep you here right next to me, yeah
You know you turn me on, ah
It's a feeling I can't fight, oh no-no
(So let's make it easy) no
(So simple and easy)
The world is calling me but
(I'd rather stay with you tonight)
You know I'll stay with you tonight
(I'll never leave your side)
And I'll never leave your side, yeah
(You know this could not feel more right)
You know this could not feel more right
(So let's just take our time)
So let's just take our time
See, theres no foolin' around
(As the days come and go)
You know there's no foolin' around
Theres no foolin'
You know theres no foolin'
There's no foolin around
(And as we both start to grow)
You know there's no foolin' around
Theres no foolin'
I'm tryna figure out, yeah
(I'm tryna figure out, yeah)
This thing that they call time
But it just slips away from me
Whenever you are next to me, yeah-yeah
Now the reasonable doubt, yeah
(Reasonable doubt, yeah)
Of how i feel inside
But I can't help this feeling

This small and simple feeling
The world is calling me but
I'd rather stay with you tonight
You know I'll rather stay with you
(Than ever leave your side) yeah
You know this could not feel more right
So let's just take our time
(Yeah, yeah, yeah, yeah)
See, theres no foolin' around
(As the days come and go)
You know there's no foolin' around
Theres no foolin'
You know theres no foolin'
There's no foolin around
(And as we both start to grow)
You know there's no foolin' around
Theres no foolin'
I'm tryna figure out, yeah
(I'm tryna figure out, yeah)
This thing that they call time
But it just slips away from me
Whenever you are next to me, yeah-yeah
Now the reasonable doubt, yeah
(Reasonable doubt, yeah)
Of how i feel inside
But I can't help this feeling
This small and simple feeling
The world is calling me but
I'd rather stay with you tonight
You know I'll rather stay with you
(Than ever leave your side) yeah
You know this could not feel more right
So let's just take our time
(Yeah, yeah, yeah, yeah)
See, theres no foolin' around
(As the days come and go)
You know there's no foolin' around
Theres no foolin'
You know theres no foolin'
There's no foolin around
(And as we both start to grow)
You know there's no foolin' around
Theres no foolin'
Even if no one agrees
And it's just you and me

I want you (yeah)
Even if no one agrees
And it's just you and me
I want you (yeah)
You light up my world
You're my favorite girl you know it's true
(You know it's true, yeah)
You light up my world
You're my favorite girl you know it's true
(You know it's true, yeah)
