

Love Let Me Go

Big Sixes

Rub the sleep from your eyes
Write down all the dreams you had last night.
Count your blessings one by one
On all your fingers and your thumbs. Draw the blind singing love let me go
So I can wait in line for something more beautiful If I wake up and you're not gone
Will you set me down like the sun?
And if I hold you in my hand
Every moment slips through like the sand Draw the blind singing love let me go
So I can wait in line for something more beautiful Something more beautiful
Something more beautiful Draw the blind singing love let me go
Please don't wait in line for something more beautiful Something more beautiful
Something more beautiful
Something more beautiful
Something more beautiful Than you had
