

# P-town

## Kottonmouth Kings

(You know what they say about these dudes? They all got rythm)

[chorus]Another day, another day goes by

Sitten round the house hangin out ge'n high

Another day, another day is passed

P-Town Ballers we was built to last

Another day, another day goes by

Sitten round the house hangin out ge'n high

Another day, another day is passed

you know the P-Town Ballers we was built to last

[Richter]Now everybody come and gather around

It's story tellin time bout a kid from P-Town

Another troubled youth smokin herb in the sub-urbs

We used to shoot a little hoop and kick flip curbs

Wake up then something happenen here

It just wasnt too clear, He was liven confused

Used to break all the rules, used to eat all the blues

He was actin a fool, it was all bad news

Until one day he opened his eyes, saw a light as a gift and began to fly

Spreadin his wings soarin high in the sky, wanted to see 105

No he didnt wanna die

Lifes crazy these days so dont flip

There is better days ahead, this is just a field trip

Thats what I learned thats just the ways it is

'cause at the end of that day yo I was that kid

[chorus][Dloc]Now the P-Town Ballers started way back in the day

It was me Johnny Richter, Daddy X and the homies say

1995 for me to be exact, makin demo tapes, playin shows at the shack

Kottonmouth Klick slash P- Town bizzle

D dash L-O-C oh shizzle

Pakelika big Pak, thats my dawg wass up?

DJ Bobby B's an army for life, I love ya 'cause

Remember, damn i can still remember sleepin on the couch, runnin ova to Lou's house

Tryin to get some food be'cause I had nothin to eat, I never had no smoke, I never got no sleep

I was always on the creep, tryin to make a quick puff

Broke without money, life really sucks

So I hooked up with a sick-ass trigger went all out

Life is really short, shouldnt be so rough (rough)

[chorus][Daddy X]?Another day blowin endo standin? by the window, ya

Just tryin to find out which way the wind blows  
Its hard to breathe when your blowing out red smoke, ya  
One thing I know is one thing I do know  
[Daddy X]Skateboardin all day till the sun went down playin punk rock music and these hip hop sounds  
Then the band starts saggin we was havin some fun  
we had backyard parties, where we knew everyone  
Richter had a nitrous tank and a keg on tap  
He has the whole damn city inked on his back  
And we laughin, 'cause this shit really happened  
We said we never never ever make it by rapping  
Dloc, you never know how you say it  
I was 3 feet away from X pushing up daisys  
[chorus 2x]
