

Waiting

Shiny Toy Guns

It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that And I'll be waiting all day
And I'll be waiting all day Summer gray, its only
And I'll be waiting all day
Its only
And I'll be waiting all day It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that And I'll be waiting all day
And I'll be waiting all day Summer gray, its only
And I'll be waiting all day
Its only
And I'll be waiting all day It's only
And I'll be waiting all day
