In and Out of Time

Colton Dixon

Future is waiting
He's always pulling me
And present's worth saving
But the past is haunting meI wanna live out of time
But I know it could run out
It could run out on me
I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of timeTime, you confuse me
You own every day
Patience, please heal me
Come take me awayI wanna live out of time
But I know it could run out
It could run out on me
I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of timeTime heals the fallin'
I hear the callin'
Clock strikes the hour
Don't run, don't cowerTime heals the fallin'
I hear the callin'I wanna live out of time
But I know it could run out
It could run out on me
I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of time
