

Holding In the World

Bob Schneider

Got my breath turned off
Machine gun
Biscuits and gravy
And nowhere to run I got my ring of fire
Black cold pearl
Got my monster maker
Holdin in the world Holdin in the world (chorus) I got impossible karate
Got the real live wire
A crazy combination
Couldnt get any higher Got the gamma radiation
A chocolaty swirl
A sticky implication
Holdin in the world (chorus) You cant stop me Im takin out everyone
You cant tell me how to have my fuckin fun
You cant tear me apart the way I do myself
(Holdin in the world) I dont need anything from no one
Keep your distance stay the hell away from
You cant tear me apart the way I do myself I got my greasy metal thighbone
I got the book of the dead
Ugly human thing now
Stuck up inside my head I got the love sweet affection
Got all my flags unfurled
I got my big stiff gorilla
Holdin in the world (chorus) You cant stop me Im takin out everyone
You cant tell me how to have my fuckin fun
You cant tear me apart the way I do myself
(Holdin in the world) I dont need anything from no one so
Keep your distance stay the hell away from me
You cant tear me apart the way I do myself I got my hybrid pony
I got my stranglin hook
I got that day old burrito
Got all The shit that you took I got a tattoo of the dead sun on my dead son.
I got my fingers all curled
I got a mountain of mountains
Holdin in the world (Holdin in the world) You cant stop me Im takin out everyone
You cant tell me how to have my fuckin fun
You cant tear me apart the way I do myself
(Holdin in the world) I dont need anything from no one
Keep your distance stay the hell away from me

You cant tear me apart the way I do myself
