

Sleep (feat. Ashleigh Cummings)

[Dan Webb](#)

Remember the pain
Though it's highly illogical
The danger's at bay
Cos it's highly illogical Sleep even though it's impossible
Dream just like an imposter should
Sleep end the pain-riddled night
Sleep end the pain-riddled night Savor the flavour
Your savior awaits you
Keep losing car keys
And treading on embers Sleep even though it's impossible
Dream just like an imposter should
Sleep end the pain-riddled night
Sleep end the pain-riddled night
