Slow Down

Copperview

Place your hands in mine
Tell me everything is fine
Crazy little feeling that I'm out of control
Can you tell me what I'm dealing with cause I don't know?
Can you help me?
Can you help me slow down?
Slow down
Let me know if I can't make it
Tell me where to find the right fit
All alone I reach my hands out
Can you help me out my friend?Show me places you have been to
Tell me everything you're into
Like a child I come eager yes I'm ready to learn
Got to make it through another day without a wrong turn
Can you help me?
Can you help me slow down?
Slow down
Let me know if I can make it
Tell where to find the right fit
All alone I reach my hands out
Can you help me out or am I gone?Let me slow down
Slow down
Let me know if I can't make it
Tell me where to find the right fit
All alone I reach my hands out
Can you help me out my friend?
Let me know
Let me know if I can't make it
Tell me where to find the right fit
Can you help me out my friend?
Let me slow down
Slow down
