

# Old Enough (OST Blair Witch 2)

## Nickelback

She's old enough  
She knows enough  
She's thrown up  
So throw her  
Out to me  
And I'll treat her like she was mine  
My belief  
You got your way and I'll get mine And I can't eat  
I can't sleep  
I want to thank you for coming  
And why do we always laugh  
While we're in this discussion Should have known enough  
Never grown enough  
Alone enough  
To know my Where would be  
The path I wanted to try  
If it fairs to be  
Good for me than I'd rather die And I can't eat  
I can't sleep  
I want to thank you for coming  
And why do we always laugh  
While we're in this discussion Black words always lead to something  
Bury her cause her time was cut thin  
All the while you just stood and stared  
Never cared to help we just got carried away Lately it seems like my dreams have started to die  
It occurred to me on the inside I guess so have I And I can't eat  
I can't sleep  
I want to thank you for coming  
And why do we always laugh  
While we're in the last ones coming Standing here with my two feet  
Enjoy it now cause it won't be  
Some way  
Some how  
The things that keep me alive  
Aren't livin' here anymore
