

# Little Superstitions

## The Rakes

Don't talk rubbish to me  
I use reason on my brain  
It's those little superstitions  
That get me through the stress and strain

I have made my contributions  
And now and then I find  
On the subject of my love life  
I've been left behind

[Chorus: x2]

Let's make the most of it  
The time we've got together  
Quit all the secrets that are  
Choking up your heart  
And tearing all the light from the stars

I'm made some calculations  
But will not put them to the test  
It's those little superstitions  
That cannot be laid to rest

Our bodies are reacting  
We're heated dangerously  
Leaving traces on each other  
That the naked eye can't see

[Chorus: x2]

Yeah, I say forever  
And you just say whatever  
But if you feel how I feel  
Then we'd stay together

Yeah, I say forever  
And you just say whatever  
But if you feel how I feel  
Then we'd stay together

[Chorus: x3]

Yeah, I say forever  
And you just say whatever  
But if you feel how I feel  
Then we'd stay together

Yeah, I say forever  
And you just say whatever  
But if you feel how I feel  
Then we'd stay together
