Better Than Love

Griffin House

Honey, when you doubt my love for you
Look into my eyes what Im going through
Even if we change and fall out of
You hold my hand and its better than loveYou save me from myself
You got my back when I need help
Its no one else in the world
You will always be my girl
You will always be, you will always be
You will always be my girlSometimes dreams they dont come true
I was scared that night when I met you
Well, I stayed patient and I was kind
Telling you to take your timeTurn my life around
You made it okay to let you down
Theres no one else in the world
You will always be my girl
You will always be, you will always be
You will always be my girlSo when Im walking down the road and feeling bad
Cant understand the things you do
Nothing turns out the way we planned
Youre still my baby and Im still your manSave me from myself
You got my back when I need help
Its no one else in the world
You will always be my girl
You will always be, you will always be
You will always be my girl
