

You See Everything

Low

Quaking with the ground
See my smile
Watch you frown
Pick it up
Lay it down
Life's too short
To be your clown
Your clown
You see everything
But I don't
Lift up the veil
Get me out of this well
On the shore
We recline

Come on in
The water's fine
So fine
You see everything
But I don't
You see everything
But I don't
You see everything
But I don't
You see everything
But I don't
You see everything
You see everything
