Lessons Learned

Latrice

lying here thinking about
all the things i did just to keep you out
playing games, acting strong
never could admit whenever i was wrong
so many feelings that i didn't share
it's just now when i've become aware
now that i finally see,
now that you are over mei won't be sad if you're not alone nowremember i was young
22 and so hack strong
you were good to me, yet i acted selfishly
and i have no excuse for the way that i was
experience teaching as it always does
the reasons though i lessons learned from goodbye
sometimes people change
I'll never be the same
the reason though i lessons learn from goodbye
