

# Forever (feat. Elijah Blake)

Jez Dior

Love forever  
It's nothing but a  
Dream I made up  
Inside my head  
When we break our promised  
Our cursed emotions  
But come next morning, I'll go loving again  
Looking for forever, darling  
Want it forever, darling  
Looking for forever, darling  
For forever  
Looking for forever, darling  
Want it forever, darling  
I can stand infinity  
But only if it's you and me  
And I'm like wait, hold up  
Who you wanna win this with  
I been in the corner waiting for a chance to run away  
I know a place that I never told you about  
Seen it while I'm sleeping, while you were holding on  
See, I got a lot to do for you (uh)  
I'm just trying to make a move for you  
Rule the world if it mean forever  
I'm tired of it being just me and my leather  
Everything's better in twos  
I'm a rookie but I'm feeling like a veteran dude  
I'm in space but I guess that's my medicine's mood  
And I know you wanna join me, I get you some too  
And I don't know my future, but you're some clue  
Mic check one two, mic check one two  
Just wanna make sure you can hear me from here  
Loud and clear  
All right, let's get it, no fears  
Love forever  
It's nothing but a  
Dream I made up  
Inside my head  
When we break our promised  
Our cursed emotions  
But come next morning, I'll go loving again

Looking for forever, darling  
Want it forever, darling  
Looking for forever, darling  
For forever  
Looking for forever, darling  
Want it forever, darling  
I can stand infinity  
But only if it's you and me Where are you now that I need you?  
Come with me wherever that I lead you  
Promise not the circle that you're used to  
I'm getting all the feelings that we used to  
It's back, it's back, it's back  
You know it's that  
Scary, ain't it? But I'm not afraid to act  
I'm just afraid to leave  
It's euphoric to me  
It's everything that I found in technicolor dreams (like)  
Forever darling  
Rose pedal garden  
What's in the water (?)  
How quick you've fallen (?)  
I'm falling, I'm falling  
I'm tripping, I'm choking up  
Don't wanna be woken up  
My mind's about to open up Love forever  
It's nothing but a  
Dream I made up  
Inside my head  
When we break our promised  
Our cursed emotions  
But come next morning, I'll go loving again  
Looking for forever, darling  
Want it forever, darling  
Looking for forever, darling  
For forever  
Looking for forever, darling  
Want it forever, darling  
I can stand infinity  
But only if it's you and me
