

# No More Games

## Dub One

I waited for you, I waited for your call  
You ain't never got time for me  
But you're always at the mall  
I'm sick and tired of those  
Games you play with me  
Can't take this attitude acting rude  
That's not cool with me  
Girl, I'm sick and tired of the games you play  
And the things you say and the things you do  
    Girl, I'm sick and tired of you  
    Girl, I'm sick and sick and tired of you  
        So step now, baby  
    Now that I know that you're full of games  
And you'll never change, you'll remain the same  
    Girl, I'm sick and tired of you  
    Girl, I'm sick and sick and tired of you  
        So step now, baby  
    I don't know what's up with you  
    Girl, you act so wack with me  
        If it's all 'bout another dude  
    Then you shoulda kept it real with me  
        Shorty, wipe those tears away  
    'Cuz my mind's made up so step now, baby  
        Go ahead with the games you play  
    Be on your way 'cuz your not the one for me  
    Girl, I'm sick and tired of the games you play  
And the things you say and the things you do  
    (Girl, your not the one for me)  
    Girl, I'm sick and tired of you  
    Girl, I'm sick and sick and tired of you  
        So step now, baby  
    (Girl, I'm tired of playing games)  
    Now that I know that you're full of games  
And you'll never change, you'll remain the same  
    Girl, I'm sick and tired of you  
    Girl, I'm sick and sick and tired of you  
        So step now, baby  
    Girl, I'm sick and tired of the games you play  
And the things you say and the things you do

Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby  
Now that I know that you're full of games  
And you'll never change, you'll remain the same  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

You had your chance and now, it's all through with me  
And now you come around cryin' to me  
All I wanted was time with you  
I get tired of your attitude  
They say that out of sight is out of mind  
And I'm not gonna let you waste my time  
What more don't you understand?  
That's it, call it quit so step now, baby

Girl, I'm sick and tired of the games you play  
And the things you say and the things you do  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

Now that I know that you're full of games  
And you'll never change, you'll remain the same  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

Girl, I'm sick and tired of the games you play  
And the things you say and the things you do  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

Now that I know that you're full of games  
And you'll never change, you'll remain the same  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

Girl, I'm sick and tired of the games you play  
And the things you say and the things you do  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you  
So step now, baby

Now that I know that you're full of games  
And you'll never change, you'll remain the same  
Girl, I'm sick and tired of you  
Girl, I'm sick and sick and tired of you
