

# Memory

**Jean Shepard**

Old memory, keep him remembering me  
Behold him constantly while we're apart  
Old memory, don't ever set him free  
Make him keep loving me, behold my heart  
Your part of memory is deeper than  
The sea you hold, such misery or happiness  
Let every hour we spent and every place we went  
Be in his memory, the ones he'll miss  
Your part of memory is deeper than  
The sea you hold, such misery or happiness  
Let every hour we spent and every place we went  
Be in his memory, the ones he'll miss
