

Take Me To Heaven

Mystic Diversions

Mystic Diversions - Take Me to Heaven

Caught up in this game
I never thought that this part of mine would let you in again
Its burning deep inside
The feeling I've always had for you when you were by my side
Crash and burns , my heart for you yearns
I don't wanna spend another lonley night

If I was strong , I would know that I'm wrong
But the way that you make me feel is my alibi

So high

You take me to heaven
Theres a full moon tonight, lets get lost in flight
Oh why, nothing lasts forever
We can go on this way
Let it all fade away
So stayyy

Stay...

When you walk away, my angrities drown out the words I have to fight to say
I miss you every night, I can't get any sleep and I lose my appetite

Crash and burns , my heart for you yearns
I don't want to spend another lonley night
If I was strong, I would know that I'm wrong
But the way that you make me feel is my alibi
So high

You take me to heaven
There's a full moon tonight, lets get lost in flight
Oh why, nothing lasts forever
We can go on this way
Let it all fade away
So high

You take me to heaven
There's a full moon tonight, lets get lost in flight
Oh why, nothing lasts forever
We can go on this way

Let it all fade away

So stayyy

Stay...

Hold me tight , its just for one night

Lift me up like you never ever let me down

I need u baby , I love u baby

I want u baby, I'm dying for you

I'm crying for you, I'm lying for you

You take me to heaven

There's a full moon tonight lets get lost in flight

Oh why, nothing lasts forever

We can go on this way

Let it all fade away
