Little Foothills Heaven

Corb Lund

Advisory - the following lyrics contain explicit language:

it's my little foothills heaven on that northern rocky range
my favoriite place to be, and mister that ain't gonna change
and i pray to old chief mountain i'll be back again someday
just in time for you to hear me say
it's my little foothills heaven on that northern rocky range
and i hope that i'll get back again somedayi can see down to montana on a clear and sunny day
and i just may ride down there with my honey for the day
if there's trouble at the border i'll say 'hey well that's ok'
cuz i'd just as soon be back home anyway
to my little foothills heaven on that northern rocky range
and i hope that i'll get back again somedayyodel-aythere's a bar-x on the rib of every critter you can see
and their coats are slick and shiny in the sun, just like you please
as they graze up toward valhalla you can almost hear them now
sayin 'it don't get much better for a cow'
than a little foothills heaven on that northern rocky range
and i hope that i'll be back again somedaymy momma's daddy's daddy picked the spot and picked it well
and when i'm tired of all this rockin rollin beatin me to hell
well out on the back quarter there's a cabin waitin there
where my little gal and i can keep the world out of our hair
at my little foothills heaven on that northern rocky range
and i hope that i'll be back again someday
