Performance

Jonathan Nelson

Whatever I say I shall receive I will believe
Great things today I will declare I will decree
God made me a promise, He's faithful to perform it
And there will be will be a performance
Today I will release my faith faith to believe
For there is a promise waiting for me

And there will be will be a performance
There shall be a performance
There shall be a performance
There shall be a performance
There shall be a performance
