

# Bish Bounce

## Fabulous

[hook]

Let these niggas know your worth

Ain't no discounts

They ain't got it better get it

Tell a bitch bounce

All dimes see a nine point that bitch out

She get ejected and corrected like a miscount

Bitch bounce

Had to tell a bitch bounce

Vinyls on the track and that bitch bounce You should make more moves

And make less announcements

Ain't with that talking bitch save that for counseling

Looked in here brown skin just keep that shit bouncin'

All of these boys wit me bring large amounts in

All of these gold chains weigh 36 ounces

All of this foreign shit can't even pronounce it

Is it g-ven-chi or is it givaunchi

T- seater seats and now its a givaungy?

Top off that wrangler

You know me no stranger

Hang like a dangler

Bitch look like Topanga

That boy meet world i swear you are in danger

Its time to score i don't choke I'm no strangler

I ball

Im ballin my nigga

Ball on these bitches

Thats word to skye digga

Gimme my shot and I'm squeezing my trigga

My homies bust two and thats word to raw digga [hook] Look, ain't go to say that i flip check my biceps

In your bitch mouth like I'm gossip

That boy be so fresh to death burry me in my closet

Don't make excuse make deposit

Ain't even suppose to be here boy i come from the projects

Shawty just fuck with my progress

I swear i came here with nothing

All this shit is profit

Should look at me like a prophet

And when these niggas throw subs

It just confirm my gangsta  
Scared to say my name now ain't cha  
No disrespect we just on different sides of the wave  
I'm providing the wave you just riding the wave, bounce![hook]
