

Herbivore

Shrub

i smoke herb before i go to work,
i smoke herb before i go to church,
amen.i got a feeling,
im high like the ceiling
im higher than ive ever been,
this time i mean it,call guinness records, cuz im about it beat it,
never in the history of any human being,
have they seen it,verify, i never cheated,
you can try, but you'll be defeated,
my eyes are bleeding,
get the paper, check the news, and you can read it,
did ya eat it?i smoke herb before i go to work,
i smoke herb before i go to church,
amen.
i need herb before i go berserk,
i need some more,
'cause baby, im a herbivore.double chocolate pastry,
has got me wasted,
im glue stick face-ded,
here's to the chef that baked it,
it's tasty,
melt into the wall? embrace it,
even the boss'll, beg for a morsel,negotiations,
i need another raise,
yep i need another paid vacation.
my cool is wearing thin, im losing patience,
sick of clocking-in,
end of conversation.i smoke herb before i go to work,
i smoke herb before i go to church,
amen.
i need herb before i go berserk,
i need some more,
'cause baby, im a herbivore.i smoke herb before i go to work,
i smoke herb before i go to church,
amen.
i need herb before i go berserk,
i need some more,
'cause baby, im a herbivore.i smoke herb before i go to work,
i smoke herb before i go to church.
