

Venus Man Trap

Veruca Salt

(woohoooo
woohoooo
woohoooo
woohoooo)
Waiting for
opportunity to strike
I have been your biggest fan
what a tour
a little blow to cure your fright
that's what it takes to trap a man
water me
I am not the desert plant
they would like before you
when I close
(will I have my blue eyes...)
when I open
(...this time?)
when I close
(should I have my green eyes?)
when I open
(that shine and shine)
when I close
(will I have my green eyes?)
when I open
I love you
(woohoooo)
I love you
(woohoooo)
I love you
(woohoooo)
I love you
(woohoooo)
woohoooo
woohoooo
woohoooo)
in my room
underneath the microscope
I remember how it felt
I thought you knew

I was always full of hope
but you could only help yourself
when I close

(will I have my blue eyes...)
when I open
(...this time?)
when I close

(should I have my green eyes?)
when I open
(that shine and shine)
when I close

(will I have my green eyes?)
when I open
I love you
(woohoooo)
I love you
(woohoooo)
I love you
(woohoooo)
I love you
ladadada

(will I have my blue eyes...)
ladadada
(...this time?)
ladadada

(should I have my green eyes?)
ladadada
(that shine and shine)
when I close

(will I have my blue eyes...)
when I open
(...this time?)
when I close

(or should I have my green eyes?)
when I open
(that shine and shine)
when I close

(will I have my green eyes?)
when I open
I love you
(woohoooo)
I love you
(woohoooo)
I love you
