

Bacteria

Voivod

Cloud and fog
Cover the earth
Dread and fear
Have now returnedRed rainfalls
Poison the sky
Blood and death
For years and moreChemical infection on it's way
Synthesized corruption and decay
Pure decay, pure decay, pure decayDead planet
Virus unknown
Plague and curse
Fall on the globeChemical infection on it's way
Synthesized corruption and decay
Parasite, parasite, parasiteBacteria out to spread
One bacteria and you're dead
One bacteria out to spread
One bacteria and you're dead
