

# Sail Away

Mason Proffit

Watchin life's waters rollin  
watchin my ship sail again.  
I know my island is waiting  
waiting where our love can ride the wind.

And we all can sail together  
and we all can sail a different way.  
But I know my island is waiting  
and in time we can all sail away.

And we all can sail together  
and we all can sail a different way.  
But I know my island is waiting  
and in time we can all sail away.
