# Electric Uncle Sam

## Primus

I am the plan, I am the man
Who tells you what and when you can
I'm the old one that torments you
I am the voice that tells you to
Don't get caught with your fingers in my pie
Mess with me and boy you're surely gonna' die
If ever you're in doubt about who or where I am
I'm here, I'm there, I'm everywhere, I am your Uncle Sam
Electric Uncle Sam
You beg me please on bended knees
Not to sit among these enemies

If you feel like you wanna dance
Then step aside and take a chance
Don't get caught with your fingers in my pie
Mess with me and boy you're surely gonna' die
If ever you're in doubt about who or where I am
I'm here, I'm there, I'm everywhere, I am your Uncle Sam
Electric Uncle Sam
I am your Uncle Sam
I am your Uncle Sam
Electric Uncle Sam
