

# She's Gone (Critical)

## Bang Camaro

She's out of her mind (oh, oh, whoa)  
She's got a hundred lies (oh, oh, whoa)  
Shit like this takes too much time (oh, oh, whoa)  
Get her out of our minds (oh, oh, whoa)

Go! Go!  
Set a course, go!

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

When it gets difficult (over and over again)  
Our love's just physical (over and over again)  
Shit like this is typical (oh, oh, whoa)  
She's gone critical (oh, oh, whoa)

Go! Go!  
Set a course, go!

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

Ten, nine, eight, seven  
Six, five, four  
Three, two, one

Party at my place, tonight  
Party at my place, tonight!

Go! Go!  
Set a course, go!

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
You're out of time  
Stars collide  
Continuum

I need space  
Make up your mind  
Over and over again
