

Afraid Of The Midnight

Sunrise Avenue

Don't be afraid of the midnight baby
Don't go running scared
Don't be afraid of the midnight baby
You're not the only one out there Coming 'round at lonely time
Running up and down your spine
Darkness doesn't jump on you
Nothing else inside the room
But incriminating truth
Silence like a sonic boom
Don't be afraid of the midnight baby
Don't go running scared
Don't be afraid of the midnight baby
You're not the only one out there
You're not the only one Just because you cannot see
'Cause it's a mistery
Doesn't mean it's out to hurt
You don't know the strength you have
'Till you face your deamons down
Everybody has that course Don't be afraid of the midnight baby
Don't go running scared
Don't be afraid of the midnght baby
You're not the only one out there
You're not the only one
Ohhhhhh
Don't be afraid of the midnight baby
Don't go running scared
Don't be afraid of the midnight baby
You're not the only one out there
No
You're not the only one
No, no, no
You're not the only one out there baby
You're not the only one Don't be afraid of the midnight baby
