

# The Funny Thing About Getting

## From Autumn To Ashes

Extraction, no one moves  
Aggravation is the current mood  
Closed accounts, prosecute  
Dressed in these outdated suits  
Transmission incorrect  
Is there anyone that's competent?  
Dismissal but I can't vacate  
Forcing my seeds to germinate Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory This will make for a great story that we will never repeat  
So nod your head and tap your feet  
Because that's the only review I need Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory These capillaries ball into a fist  
I tuck it safely away inside my pocket  
How can I be more obvious  
Blazers are worthless when you can't produce a hit And I hope to be the biggest disappointment
