## Twiztid

"The following public service announcement  
is brought to you by Twiztid.  
Dementing one generation at a time"  
Im a person who killed myself  
Had a problem and no one helped  
I tried to reach out but no reply  
And now im gone any youll never no why Needed someone to listen  
Help me make my decisions  
It gets so hard sometimes  
That I cant do it alone cant do it alone It seems that love was missin  
All the hate was just too convincing  
Its just too much for me  
And now im ready to go im ready to go Throw that dirt and just (bury me) x4 Look at me now im on the news  
(on the news, on the news)  
Buried in the fuse with tv crews (tv crews, tv crews)  
Found a cell phone it must be mine (must be mine, must be mine)  
Heres the message it read inside (read inside, read inside) I hate you, you pos (piece of shit), no lol, bitch im  
serious, and i suggest you kys (kill yourself) and bih (burn in hell) you're worthless Needed someone to listen  
Help me make my decisions  
It gets so hard sometimes  
That I cant do it alone cant do it alone Throw that dirt and just (Bury me) Let me tell you what i would do (I  
would do, I would do)  
If they text me like they text you (They text you, they text you)  
Put down the phone and go to they house (Go to they house, go to they house)  
And take them and they whole family out (gun shots) Needed someone to listen  
Help me make my decisions  
It gets so hard sometimes  
That I cant do it alone cant do it alone Throw that dirt and just (Bury me) I hate you, you pos (piece of shit), no  
lol, bitch im serious, and i suggest you kys (kill yourself) and bih (burn in hell) you're worthless (x2) Needed  
someone to listen  
Help me make my decisions  
It gets so hard sometimes  
That I cant do it alone cant do it alone It seems that love was missin  
All the hate was just too convincing  
Its just too much for me  
And now im ready to go ready to go
