

# No Particular Order

## Oh Land

Wake up with my brain in a glass jar  
Never said I didn't like the drama  
Throw my bike fall on my knees  
Heaven help don't rain on me  
Watch so many films I apologize  
I can serenade at your window for hours  
In between so undefined  
Get me lost its tears are smiles Generation on and off  
Know I drive you crazy with my scattered brain  
Generation all alert  
Know I drive you crazy cause I always change Shoot me and save me in no Particular order  
No Particular order  
No no no no  
Catch me and drag me in no particular order  
No Particular order  
No no no no (oh!) Look away one minute I am off to the west  
Challenge my attention really put to the test  
Kiss me now I'm on my knees  
Slam the door behind my feet  
Read to many books I apologize  
Bad idea no to identify  
Couldn't learn without a burn  
Teach me how to live and learn Generation on and off  
Know I drive you crazy with my scattered brain  
Generation all alert  
Know I drive you crazy cause I always change Shoot me and save me in no Particular order  
No Particular order  
No no no no  
Catch me and drag me in no particular order  
No Particular order  
No no no no (oh!) Shoot me and save me in no Particular order  
No Particular order  
No no no no  
Catch me and drag me in no particular order  
No Particular order  
No no no no (oh!)----Instrumental piece---I can't defend it (oh)
