On a Good Day

Gina Jeffreys

When the wind blows out the candle
of the brightest light you've known
And you're left to find the answers
in the darkness - all alone
Most days all you do is cry
and spend you're whole life asking - "Why?"

Unless you're the one who lives it
You never really know the pain
there's a constant ache inside you
time never takes away
All you do is the best you can
and pray every now and then...

On a good day you'll remember
all the things that made you smile
On a good day there's a moment
you'll stop crying for awhile

Some days it's hard to hide
the sound that sadness makes
But nobody hears
a heart break
on...
a good day.

A tear can drop unnoticed
unless you feel it fall
Some nights you'll sit and wonder
if you feel anything at all
You're standing still in time
and just when you think you can't get by...

On a good day you'll remember
all the things that made you smile
On a good day there's a moment
you'll stop crying for awhile

Some days it's hard to hide
the sound that sadness makes

but nobody hears
a heart break
on...
a good day.

Some days it's hard to hide
the sound that sadness makes
but nobody hears
a heart break

---
nobody hears
a heart break
on ...
a good day.
