

Be There

[Sara Watkins](#)

You needed me I was gone
For too long I couldnt be found
And youre tired now I should be there I know
I should help you bear the load
Youre tired of living alone
And Im sorry But we can still win this
Were still in the game
Dont leave me hanging
Dont hang up the phone
Please be there when I get old Have the will to try
And find the strength for one more climb
Its been a hard time But we can still win this
Were still in the game
Dont leave me hanging
Dont hang up the phone
Please be there when I get old But we can still win this
Were still in the game
Dont leave me hanging
Dont hang up the phone
Please be there when I get old
