

Want To Be With You

Moody Blues

When I think of all the things that we've been through
And all the things we've yet to do
I, I start to realize without you by my side
The world is such a lonely place, want to be with you
I remember all the heartaches we have known
The angry nights when we were lonely
The jealousy and pain, can we remain the same?
The world will have to hold it's breath, want to be with you
I don't need a reason
I don't need to understand
I just want to be
Want to be with you
Only want your love
Only want you by my side
Only want to be
Want to be with you
And when I look back down that road
I see the turnings that we both made
The choice we had to make, the promises we break
Are nothing more than memories, want to be with you
The jealousy and pain, can we remain the same?
The world will have to hold it's breath, want to be with you
I don't need a reason
I don't need to understand
I just want to be
Want to be with you
Only want your love
Only want you by my side
Only want to be
Want to be with you
